# ZEDLOCK®

**High Security Gate Locks with Euro Cylinder Key System**

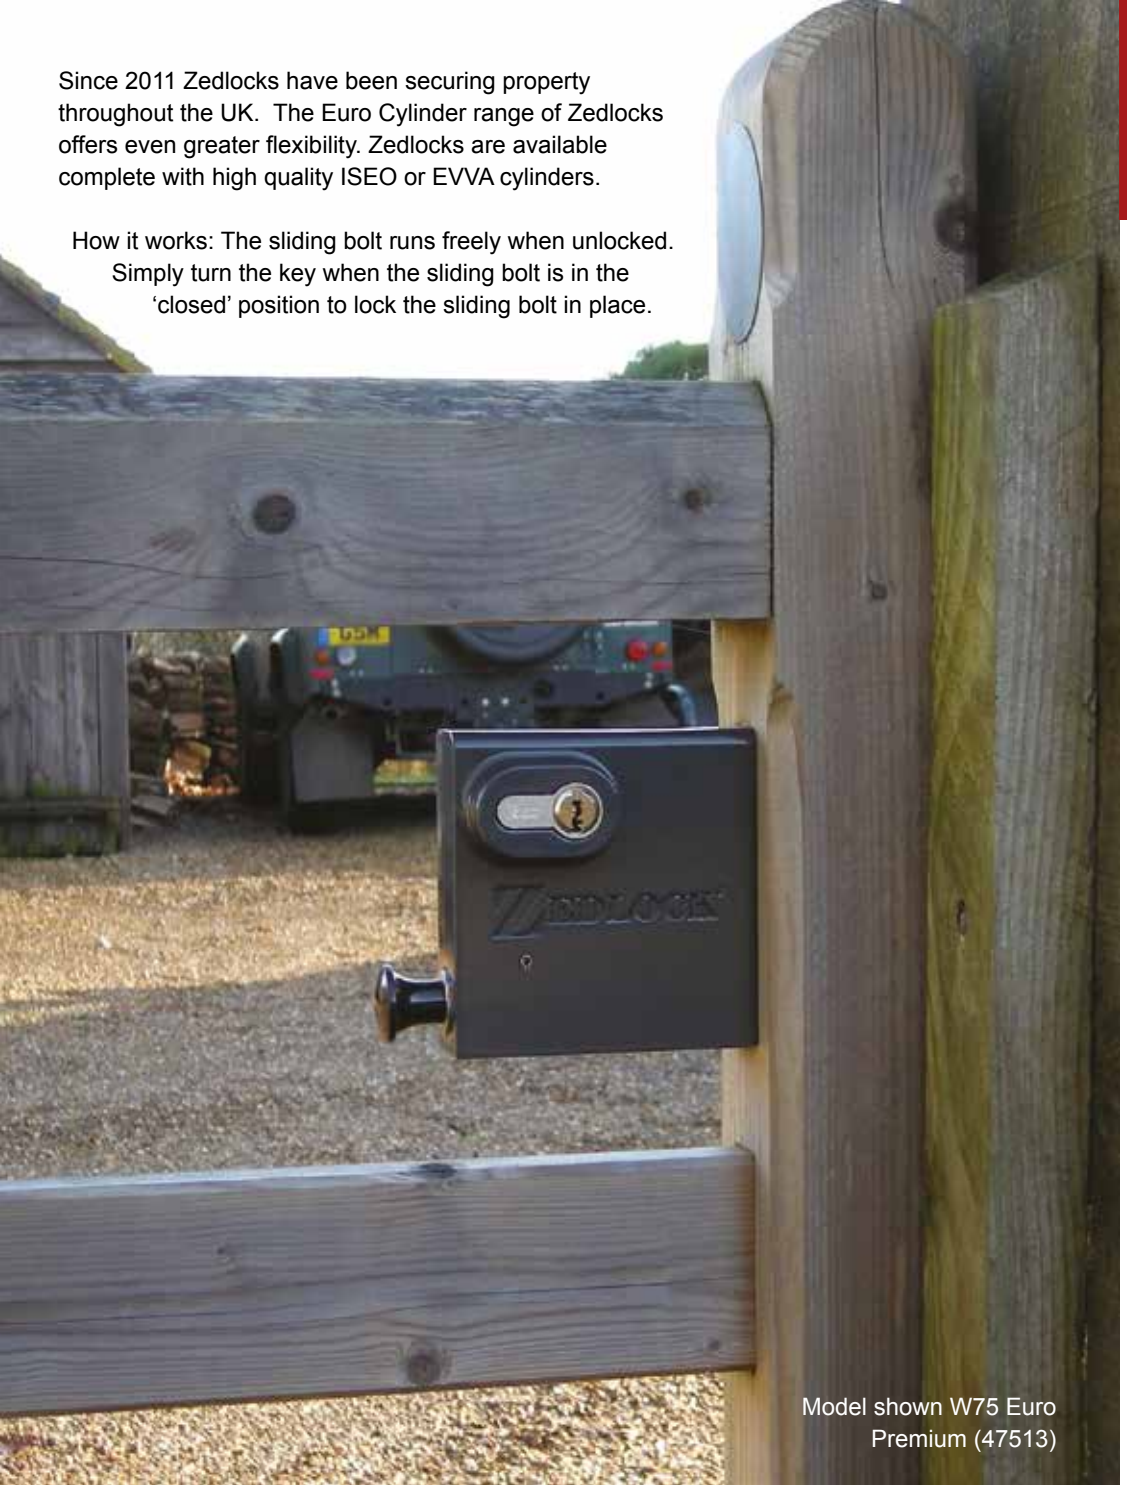

**Homeowner | Industrial | Agricultural**

zedlock.com

Since 2011 Zedlocks have been securing property throughout the UK. The Euro Cylinder range of Zedlocks offers even greater flexibility. Zedlocks are available complete with high quality ISEO or EVVA cylinders.

How it works: The sliding bolt runs freely when unlocked. Simply turn the key when the sliding bolt is in the 'closed' position to lock the sliding bolt in place.

Model shown W75 Euro Premium (47513)

ZEDLOCK®

## HOMEOWNER RANGE

The Zedlock Driveway Gate range is ideal for the majority of wooden 5-bar gates. A discreet locking solution with no visible clue as to whether the Zedlock is locked or unlocked.

### W75 Euro Bare — 47502

Supplied without cylinder. Requires a 30+30mm cylinder
Includes all necessary fixings

### W75 Euro ISEO — 47512

With ISEO F5 5-pin cylinder
Supplied with three keys per cylinder

### W75 Euro Premium ISEO — 47513

With ISEO R6 6-pin anti-drill cylinder and reversible key
Supplied with three keys per cylinder

See page 4 for other lock cylinder options including keyed-alike locks

### Double Gate Drop Rod — 60001

For wooden double gates. The drop rod locks in the 'down' position when both gates are closed

### Morticed Striker — 60002

To reinforce the sliding bolt hole
Supplied with 75mm coach screws

### Surface Mounted Keep — 60003

For gates that slam AGAINST the post
Suitable for all posts up to 200mm deep

The Zedlock Industrial Range is available to suit a wide range of metal gate frames. Pair with one of the Euro Cylinder options or fit your own choice of cylinder.

ZEDLOCK®

Zedlock Genuine Accessories have been engineered to work perfectly with your Zedlock. Straightforward to fit and supplied with all necessary fixings.

### Double Gate Claw for 50mm frames — 65001

Stainless Steel bracket 'claws' around the neighbouring gate frame. Also suitable as a heavy Duty striker on single gates

### Double Gate Claw for 60mm frames — 66001

Stainless Steel bracket 'claws' around the neighbouring gate frame. Also suitable as a heavy Duty striker on single gates

### Morticed Striker — 60002

To reinforce the sliding bolt hole in brick, wood etc.
Supplied with 75mm coach screws

### T-Handle — 60004

Screws to the underside of the sliding bolt
Ideal where there is limited access to the standard handle

### KABA Lock Spray/Lubricant — 70001

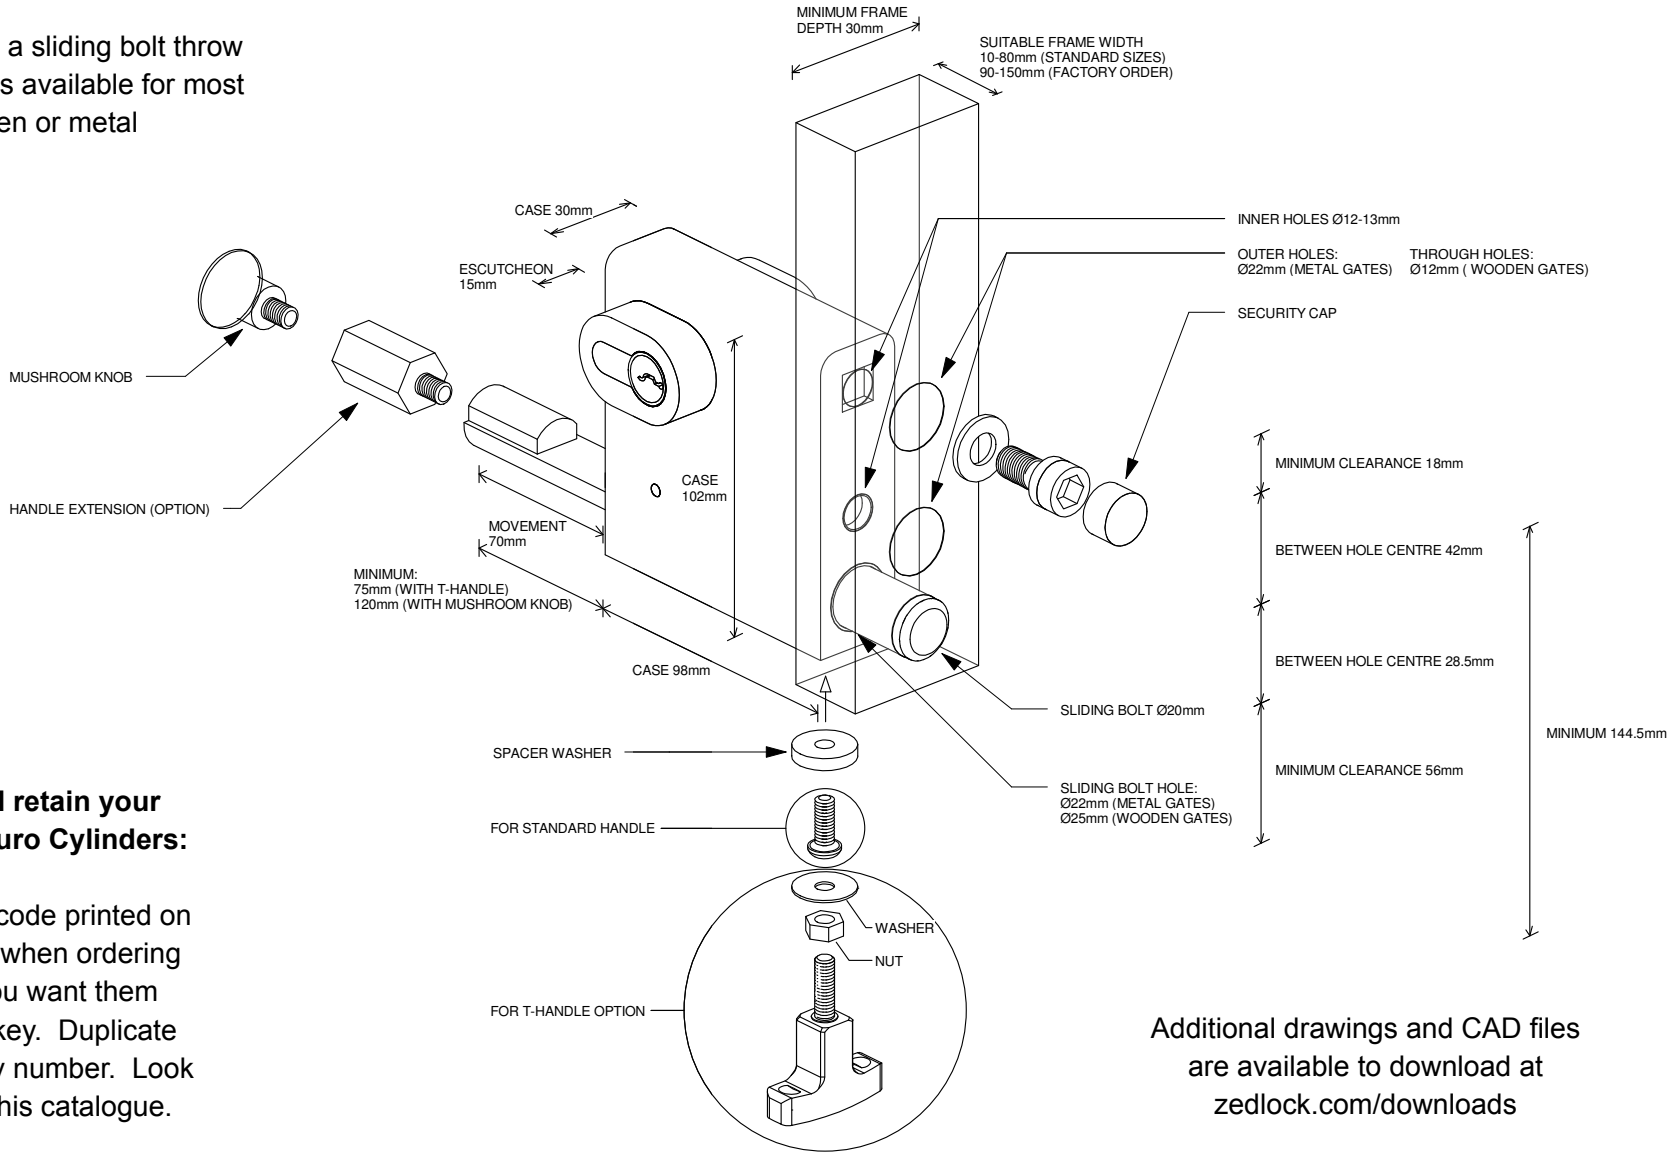

Spray lubricant for all lock types. 200ml can

### Double Gate Drop Rod — 60001

Locks in the 'down' position when both gates are closed
Suitable for metal and wooden gates
Max gap beneath gate: 350mm

Simple to fit and with a sliding bolt throw of 70mm, a Zedlock is available for most gates, wooden or metal

**Add new Zedlocks and retain your original key with ISEO Euro Cylinders:**

ISEO keys have a unique code printed on them - quote this number when ordering additional Zedlocks if you want them matched to your original key. Duplicate keys can also be cut to key number. Look for the ISEO emblem in this catalogue.

Additional drawings and CAD files are available to download at zedlock.com/downloads

The Zedlock S25 Range is easy to retrofit on the most popular field gates, replacing the springbolt. Available with a choice of lock types according to your security needs. Straightforward to fit with handle extension and 22mm hole cutter included.

**Compatibility:** For 25x50mm & 30x50mm frames and compatible with Bateman Cattleyard; Century; Ashcombe and Half Mesh gates, and IAE Ashbourne Plus. National Box End, Big Bar Plus, Five Rail Half Mesh and Eight Rail Premier. Also suitable for Ritchie gates though minor modifications may be required to the spring bolt hole.

For gates (metal or wooden) that slam AGAINST the post
Suitable for all posts up to 200mm deep.

ZEDLOCK®

Designed in the UK, Zedlock Gate Locks are ideal for securing a wide range of metal and wooden gates. Convenient in operation and designed for a long service life, they are an ideal alternative to a padlock and chain.
The Euro Cylinder key system means that your Zedlock can be part of a Keyed-Alike or Master Key system, and replacing or upgrading the cylinder is straightforward and can be carried-out with the Zedlock in-situ.
